**COMMENTS ON STATEMENT OF REASONS FOR ALLOWANCE**

Dear Sir:

Applicants note the Examiner's statement of reasons for allowance. No inference or conclusion should be drawn that Applicants believe that the Examiner's reasons for allowance are the *only* reasons the claims are patentable. The Examiner's statement appears to focus on certain features contained in the independent claims and not disclosed in the prior art. However, no mention is made with respect to other inventive aspects of the independent claims.<sup>1</sup> Moreover, no mention is made with respect to any of the dependent claims, which include other and/or additional patentable aspects. Thus, Applicants interpret the Examiner's statement to be in no way exhaustive -- whether relative to the independent claims *or* the dependent claims.

---

<sup>1</sup> Applicants emphasize that the independent claims are directed to combinations and, for the purposes of this application, it is those combinations that are patentable.

Finally, although Applicants agree with the Examiner's ultimate conclusion that the inventions, as claimed herein, are patentable over the prior art, there are many inventions described and illustrated in the above-referenced application that are not claimed herein. Indeed, those inventions may or may not include one, some or all of the features the Examiner indicates are not disclosed in the prior art.

Respectfully submitted,

A handwritten signature in black ink, appearing to read "R. Gregory".
